Matenil

Matenil is an international franchise group that specializes in web hosting as well as web design and development services. Its business model was specifically designed and structured to cater for the more discerning and exclusive corporate and personal web user who requires a service provider that provides exceptional service delivery, uncompromising product quality and functionality as well as has international credibility and substance.

Matenil was founded in direct response to the overwhelming need by high profile international corporates and business executives, to retain the services of a dynamic web hosting, design and development organization that can comply with their respective product requirements, professionalism and high corporate standards.

In its quest to become a global leader, Matenil has taken the web service industry to an unprecedented level when it introduced its Client Benefit Program. The Client Benefit Program entails that Matenil has formed various strategic alliances and partnership programs with exclusive and resourceful organizations and corporates to afford invaluable corporate resources such as venture capital, corporate advisory services and valuable business opportunities and projects to its clients.

What are our corporate services?

Matenil's robust corporate strategy and its philosophy of providing superior client services have led to the creation of its comprehensive and dynamic portfolio of corporate services. Matenil's specialized corporate services include:

Web Hosting

Matenil offers its clients a wide range of web hosting plans and services for their individual web hosting needs that apply the latest and most advanced technologies, which comply with international standards, as a matter of principle.

Web Design & Development

Matenil's web design and development team offers its clients unparalleled customized products, through its vast collective experience and expertise. Our team of specialists specifically focuses on critical features such as superior graphic design, navigational functionality, search engine optimization, behavioral modeling and corporate branding.

Client Benefit Program

In addition to its primary business services of providing specialist web hosting and web design and development services, Matenil has developed its unique and unrivalled Client Benefit Program. This program allows for Matenil's clients to – through its introduction and facilitation services – obtain access to invaluable corporate resources such as venture capital funding, corporate advisory services as well as business and project opportunities as a secondary business services offering.

Matenil's Client Benefit Program is made possible through its well established strategic alliances with various influential international corporate resources companies and organizations.

What differentiates us?

The most important difference is that, at Matenil, we offer our clients objectivity and corporate substance that goes far beyond the mere provision of web hosting as well as web design and development services.

Matenil forms part of the largest corporate network association in the world, and as a result we provide our clients with access to corporate resources that are necessary and pivotal to any business success and sustainability. Matenil has become the only web hosting as well as web design and development group in the world that offers such diversified, comprehensive and dynamic secondary services features to its clients.

Our access to substantial venture capital and professional advisory resources, established through the International Business Development Foundation (IBDF) corporate network, distinctly differentiates Matenil from others in the web hosting as well as web design and development services industry.

For more information pertaining to the IBDF corporate network, kindly visit their web site at www.ibdf-online.com
